GREEN Charter Schools launched its first STEM high school in the South Carolina Upstate region. The new 80,000 square foot school will feature curriculum focused on renewable energy, sustainability and conservation efforts.

The purchase and renovation of GREEN Upstate High School was financed with municipal bonds issued through the South Carolina Jobs and Economic Development Authority, underwritten by Ziegler. The Series 2021 Bonds have a 35-year final maturity and were sold at a top yield of 3.22% for bonds maturing in 2056.
